WHEN YOU'RE WITH US.

Having an AfterCARE program helps and strengthens the transition from residential treatment to continuous care. Recovery is a lifelong journey that requires continued support, resources and guidance. This AfterCARE program is multidisciplinary consisting of various subprograms that are designed to build community with residents and alumni. Our goal is to support our graduates advance their lives for continued success and strong connection.

Empowering Men to Recover and Transform for Life

What is the AfterCARE Program?

Developing an aftercare plan and network of support helps with the process of recovery and lifelong sobriety. Our AfterCARE/FamilyCARE counsellors specialize in ensuring comprehensive planning so that there is continued success, and strong efficacy.

In the AfterCARE program clients are coached and mentored to accomplish their financial, emotional, mental, spiritual and relationship goals.

We help clients to connect with their loved ones and develop a network of support. In partnership with the client, we ensure that dreams and aspirations are achieved through continuous successes.
