

WHEN YOU'RE WITH US.

Your time spent at Simon House is designed to support your journey towards a life of recovery. This is your journey and sometimes it's hard to see the best path forward when you are in the middle of the storm – that's where we come in. Our strategies are designed to facilitate the rebuilding of lives, healthy habits and a strong foundation of sustainable sobriety.

We return sons to parents, brothers to siblings, fathers to their children, husbands to their families

WHAT IS ADDICTION?

Addiction is characterized by inability to:

- Consistently abstain.
- Impairment in behavioural control.
- Craving.
- Diminished recognition of significant problems with one's behaviours and interpersonal relationships.
- A dysfunctional emotional response.

Like other chronic diseases, addiction often involves cycles of relapse and remission. Without treatment or engagement in recovery activities, addiction is progressive and can result in disability or premature death.

WE UNDERSTAND.

Simon House Recovery Centre is proud to accept men who are prescribed Suboxone or Methadone, as part of our Medication Assisted Recovery Program. We are proud to partner with Alberta Health Services' Opioid Dependency Program, to provide services to these men in need of residential treatment and recovery.
